Re: Stormwater Construction General Permit Fee Increase Notification

Effective January 5, 2009, the permit fees for the Phase II Stormwater Construction General Permit (NJ0088323) will be increased and bifurcated. This notification is in conjunction with adopted modifications to the NJPDES Rules at N.J.A.C. 7:14A appearing in the January 5, 2009 N.J. Register and are as follows:

- 1.0 – 5.0 acre disturbances - \$450.00
- Greater than 5.0 acre disturbances - \$650.00

All fees remain payable by check, money order or public agency voucher; made payable to Treasurer, State of New Jersey. Public schools, religious and charitable institutions remain fee exempt.

Construction projects less than one acre but part of a larger plan of development continue to be subject to the policies outlined in the Stormwater Permit Program, Phase II Manual, Section 20.4.

This office is currently coordinating with NJDEP – Division of Water Resources on revising all applicable forms and documents to reflect the new bifurcated fee schedule. Once completed, these forms and documents will be distributed to all districts.

Please contact this office should you have any questions.
